

SisterStay

SisterStay is a homestay organisation for women who want to remain active and engaged in life. No more worries about solo travel. We in the SisterStay community open our homes to one another so we can travel and explore and make new friends along the way. What better way to enjoy retirement than regular stays with new friends in different parts of the country?

Identity-checked members are able to view each other's profiles and locations and contact one another via our online messaging facility. In addition to listing our own interests and enthusiasms, we mention what's worth seeing and doing in our area including local attractions, courses and events. We also have a section for membership of clubs and societies which would allow you to search for other NHSRF members in our community - or other book group or Ramblers or RHS members and so on.

At just £36 / night wherever you stay, it is affordable for everyone and since £30 of this goes directly to the host, it works out at under a tenner a night if you choose to host as often as you stay.

Launched in 2019, it is presently completely free to join. In fact, the first 250 women to do so will be entered in to a prize draw for a £100 **Craft Courses** voucher allowing the lucky winner to combine a few days away with joining in a local course.

Please visit our website at www.SisterStay.com to find out more. We really do offer "a welcome home wherever you travel". So what are you waiting for?
